## **DETAILED ACTION**

### ***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: the prior art does not teach the claims as amended to include the structure to change from a first kinetic phase state to a second kinetic phase state different than the first state. The Magovern reference US 5,979,456 and Freedman US 5,176,618 used in the prior rejection do not teach the implant to be changeable between two kinetic phases or that placement of the structure in a tongue to fixate tissue and resist collapse of the tongue in an airway.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***
